

## Instructions for tinting ECOBOND® LBP Hybrid

*ECOBOND® LBP Hybrid acrylic latex paint readily accepts tinting. For best results, provide this card to your local paint specialist prior to tinting.*

### Universal Colorants Recommended

#### Light Colors (Pastel Colors)

Tint with White Base formulas using less than 2 ounces of universal colorant, use 10% of the formula to achieve a similar color

#### Medium Colors (Tint Base colors)

Tint in White Base paint using 2-6 ounces of universal colorant, use 25% of the formula to achieve a similar color

#### Darker Colors (Deep Base Colors)

Tint in Deep Base or Ultra Deep base paint using around 8 ounces of universal colorant, use 85% of formula to achieve a similar color
